

# Contents

1	Introduction .....	1
1.1	Plastics – a revolutionary class of materials.....	1
1.2	Global production, use and fate of plastics.....	3
1.3	Microplastics in aquatic environments.....	7
1.4	Tire and road wear particles.....	18
1.5	Fundamentals of gravitational settling.....	19
1.6	Research aims and structure of the thesis .....	22
2	Optimized and Validated Settling Velocity Measurement for Small Microplastic Particles (10–400 $\mu\text{m}$ ).....	23
2.1	Introduction .....	24
2.2	Methods .....	25
2.3	Results and discussion .....	31
3	Settling Velocities of Small Microplastic Fragments and Fibers .....	41
3.1	Introduction .....	42
3.2	Methods.....	43
3.3	Results and discussion .....	48
4	Settling velocities of tire and road wear particles.....	57
4.1	Introduction .....	58
4.2	Materials and methods.....	59
4.3	Results and discussion .....	64
5	Conclusion.....	77
5.1	Summary and discussion .....	77
5.2	Prospect and concluding remarks.....	82
	Appendix.....	83
A	Supporting Information.....	85
A-1	Optimized and Validated Settling Velocity Measurement for Small Microplastic Particles .....	85
A-2	Settling Velocities of Small Microplastic Fragments and Fibers.....	114
A-3	Settling velocities of tire and road wear particles.....	143
B	Bibliography .....	209
C	Acronyms and notation.....	231
D	Lists of Figures and Tables.....	235
